

AirGill Face Masks with ViralOff Technology

**AIR
GILL®**
FABRIC FACE MASK
INCL. STORAGE POUCH

Black

Ash Grey

Petrol Blue

Blush

The AirGill Face masks are modern looking, snug fitting and low profile with an unobtrusive design. The masks give additional protection against infection of bacteria and viruses, as well as allowing the wearer to go about their daily business with confidence.

Incorporating innovative Polygiene ViralOff Technology which has active ingredients that combat bacteria and viruses - essentially a sanitiser for textiles.

The active ingredients within the technology have an affect against all enveloped viruses, including COVID-19, and is proven to reduce viruses and bacteria by 99% over a 2 hour timespan - staying clean and fresh without you having to physically wash the product yourself. Odor Crunch technology is incorporated into the masks, eradicating any bad odours or smells that may develop during the day.

KEY FEATURES

Comes in a re-sealable foil packet to prevent any contamination

3D shaping across the nose for a precise and comfortable fit

4 way stretch fabric gives a tight, snug fit minimising any possible air gaps

Water repellent outer wards off any airborne water droplets

Dye cut means no thick seams, providing long-lasting comfort

Odor Crunch eliminates any odours so the mask can be worn for long periods of time with no need for washing

ViralOff technology proven to reduce viruses and bacteria by 99% within a 2 hour timespan
